Q5
Where in your Advisory Neighborhood Commission, not just your SMD, do you think density should be increased to accommodate the construction of new housing? If you do not think density should be increased in your ANC, please write, "I do not think density should be increased in my ANC."

Challenges of affordability is closely linked the supply of housing in the city, so I support increases in density across the District and in my ANC. There is opportunity to build up on Mt Pleasant Street to create more housing, but we should also consider smaller development projects throughout the neighborhood that increase housing density. In my first term as Commissioner, I have worked closely with neighbors to support responsible development in our community. I know many welcome more housing options that keep Mt Pleasant affordable and accessible.

Q6
I consider affordable housing to be (check all that, in your opinion, apply):
- Costing no more than 30 percent of one's household income

Q7
I consider market-rate housing to be (check all that, in your opinion, apply):
- Not means-tested or income-restricted
- Not rent-controlled

Q8
The District's inclusionary zoning law "requires that eight to 10 percent of the residential floor area be set-aside for affordable units in most new residential development projects of 10 or more units." The cost of doing so is paid by a project's developer, and IZ units are income-restricted. Because the number of IZ units is tied to floor-area ratio, the larger a building is, the more IZ units will be built. Conversely, if the initial density proposed by a developer is reduced during the approvals process, rather than maintained or increased, fewer IZ units will be built. ANC commissioners are likely to hear from some constituents concerned by a project's potential impact—real or assumed—on traffic, parking, views, and property values and rents, and whether it fits the character of the neighborhood. While it is not a guarantee that a development proposal including IZ units will come before your ANC, if one does, what would you do, given the likelihood of at least some pushback?
Q9
Planned unit developments are projects in which developers are able to exceed the height and density allowed by the District's zoning code up to the density allowed by its Future Land Use Map (typically a modest increase in scale) in exchange for a community benefits agreement. While it is not a guarantee that a PUD will be proposed in your ANC, if one is, the commission is likely to be the party negotiating that community benefits agreement with a developer. The following are examples of benefits that an ANC might push for in such an agreement. Please rank them in the order in which you would prioritize them.

<table>
<thead>
<tr>
<th>Benefit</th>
<th>Rank</th>
</tr>

<td>8</td>
</tr>
<tr>
<td>Direct cash payments to local schools and youth programs</td>
<td>3</td>
</tr>
</tbody>
</table>

Q10
Check any of the below combinations of features that you would consider social housing.

- District-owned housing on District-owned land, built by a District agency and managed by a District agency
- District-owned housing on District-owned land, built by a District agency and managed by a private property-management company
- District-owned housing on District-owned land, built by a private construction company and managed by a District agency
- District-owned housing on District-owned land, built by a private construction company and managed by a private property-management company

Q11
Should apartments be legal to build District-wide?
Yes

Q12
Which statement do you agree with most?
New housing should be built both along major corridors and throughout existing residential neighborhoods, in buildings of all sizes.
<table>
<thead>
<tr>
<th>Q13</th>
<th>Historic districts are important, but they are also problematic. We have the right number of historic districts and landmarks and shouldn’t be adding more.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q14</td>
<td>Creating opportunities for new housing in my commission’s area</td>
</tr>
<tr>
<td>Q15</td>
<td>Just the right amount</td>
</tr>
<tr>
<td>Q16</td>
<td>Too many cars</td>
</tr>
<tr>
<td>Q17</td>
<td>Yes</td>

<tr>
<th>Q13</th>
<th>Which of these statements best describes your feelings about historic districts in the District?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q14</td>
<td>The District is likely to begin a rewrite of its Comprehensive Plan, its foundational land-use document, in 2025. In a rewrite of the Comprehensive Plan, which of these three options would be your top priority?</td>
</tr>
<tr>
<td>Q15</td>
<td>My ANC, not just my SMD, has:</td>
</tr>
<tr>
<td>Q16</td>
<td>Do you think there are not enough cars, enough cars, or too many cars in the District?</td>
</tr>
<tr>
<td>Q17</td>
<td>The Sustainable D.C. 2.0 plan includes a target of reducing commuter trips made by car to 25 percent. Do you agree that incentivizing residents and visitors to drive less should be an explicit policy goal of the District?</td>
</tr>
</tbody>
</table>
Q18

Incentives for people to drive less and nudges to make them drive safely can prevent drivers from killing other people, but research shows such “carrots” won’t be enough to curb the public health crisis of increasing traffic fatalities. Keeping people alive and safe on District roads requires policies that actively reshape our transportation systems and built environment to decrease single-occupancy vehicle trips, and to slow down drivers when they do make those trips. Please rank the following policies in the order that you would like to see the District government pursue them.

<table>
<thead>
<tr>
<th>Policy</th>
<th>Rank</th>
</tr>
</thead>
<tbody>
<tr>
<td>Implementing a road-pricing program</td>
<td>11</td>
</tr>
<tr>
<td>Increasing the cost to own a car in the District, including RPP and parking registration</td>
<td>10</td>
</tr>
<tr>
<td>Removing minimum parking requirements in new developments near transit</td>
<td>2</td>
</tr>
<tr>
<td>Implementing road diets on arterial streets</td>
<td>5</td>
</tr>
<tr>
<td>Making some streets, especially residential streets, car-free</td>
<td>9</td>
</tr>
<tr>
<td>Regional reciprocity for automated traffic enforcement</td>
<td>3</td>
</tr>
<tr>
<td>Building more housing and affordable housing in the District proximate to transit and job centers</td>
<td>1</td>
</tr>

<tr>
<td>Regularly removing parking lanes for bus lanes</td>
<td>6</td>
</tr>
<tr>
<td>Regularly removing travel lanes for bike lanes</td>
<td>7</td>
</tr>
<tr>
<td>Regularly removing parking lanes for bike lanes</td>
<td>8</td>
</tr>
</tbody>
</table>
Q19
The above question asks about systemic policies to reduce trips by car that the District’s executive and legislative branches would need to initiate. As a commissioner, your powers are only advisory, but the intensely local nature of the role means that you can direct your attention to shepherding improvements to the built environment in your neighborhood that, while smaller in scale than changing District law or instituting a new citywide program, are no less important to making all road users safer. Please rank the following initiatives in the order you would be most enthusiastic about your ANC considering a resolution concerning them.

The installation of more automated traffic enforcement cameras to ticket drivers for speeding or running red lights and stop signs 7
The removal of parking spaces as part of a project to widen sidewalks 6
The removal of parking spaces as part of a project to build a protected bike lane 4
The removal of parking spaces as part of a project to build a bus-priority lane 5
The removal of parking spaces near crosswalks to increase the visibility of pedestrians to drivers, referred to as “daylighting” 1
The removal of residential parking spaces to enable short-term parking for delivery drivers 8
The installation of speed bumps to slow down drivers 3
The installation of raised crosswalks with high-visibility signage to alert drivers to pedestrians 2
The temporary or permanent closure of certain streets to single-occupancy vehicles to create zones for pedestrians 9

Q20
On-street parking occurs in public space. This means that an on-street parking spot does not belong to a specific individual, and people park in different places at different times. What do you consider a reasonable rule of thumb for deciding if a neighborhood has enough street parking?

Q21
The District’s goal to be carbon-free by 2050 requires most of the reduction of its transportation emissions to come from residents turning existing single-occupancy vehicle trips into transit, walking, and biking trips. Please describe at least one trip you currently take by car (even if you, yourself, are not driving) that you can commit to taking on foot, by bus, by train, via a mobility device, or by bike instead.

My bicycle has been my main mode of transport in the city for over 10 years and I actively try to avoid driving. However, that has been challenging to do with two young children. Fortunately, my children are getting older and are able to move around the city more easily. I plan to take them to more of their extra-curricular activities by bus. They find the bus more fun than the car anyway.
Q22
What do you feel is the biggest issue in your neighborhood, and what is your position on it? And, given the limited scope of commissioners’ and commissions’ authority, what would you, most realistically, do about that issue if you are elected?

I feel the biggest issue in my neighborhood is, and my position on it is:

If elected, I would:

Public safety and quality of life issues have been an ongoing challenge for our neighborhood.

Continue leading of safety issues, ensuring that we address the challenges thoughtfully and respectfully.

Q23
ANC commissioners represent about 2,000 constituents and, when sworn in, commit to upholding the District of Columbia's interests, not solely your commission's or single-member district's. With the understanding that you are not going hear from every single one of your constituents during your term, and that commissioners are sworn to act in the interest of the entire District, describe how you might make decisions as an elected representative.

I make myself available to all my constituents. I may not be able to hear from every single one on every issue, but when someone wants to share their thoughts or concerns, they can easily get a hold of me. I receive regular communication from my neighbors, and I'm grateful for their insights, guidance, and passion for our community.

Q24
Why do you think you are the right person to serve as an ANC commissioner for your SMD?

I live among a community of people who are incredibly committed to our neighborhood and one another. When challenges arise, I've seen how quickly they mobilize to find a solution. I'm honored to serve in a capacity that can leverage and amplify this energy. We have overcome major obstacles in the past two years, and I'm ready to continue this work alongside my neighbors.
